

# Connect The Dots

(By Intervals Of 2)

## A Tube Feeder

There are two kinds of tube feeders; some have small holes and some have large holes.

### Birds Attracted To Tube Feeders With Large Holes:

Titmice, Finches, Jays, Grosbeaks, Nuthatches, Redpolls, Pine Siskins, Sparrows, etc.

### Birds Attracted To Tube Feeders With Small Holes:

Finches and Chickadees
